## Things to do before a typhoon strikes

01	Prepare for evacuation!	12
02	Check information on the typhoon and rain!	13
03	Check the river levels!	14

# 01

## About My Timeline

- My Timeline is a reference to evacuate safely when rivers are about to flood. Think about how to evacuate before rain.
- "Evacuation Kit" is a reference to help make My Timeline. Find the information issued by municipal offices, etc. and the necessary preparation before rivers flood!  
Make My Timeline and evacuate safely!

## 02 Why is My Timeline important?

- Every year, many people die due to river flooding and landslides.  
A common reason is evacuating too late.
- Make My Timeline so that everyone can evacuate safely.

**September 2015**

**Torrential rain in Kanto and Tohoku (heavy rain)**

**Many people evacuated late.**

- Approximately 4,300 people evacuated late.
- After this, My Timeline project was started.

**October 2019**

**East Japan Typhoon / Typhoon Hagibis**

**Many people died while evacuating.**

- Rivers flooded and spread further.
- There were many people who evacuated late or died while evacuating.

## 03 How to make My Timeline

- ① Check how dangerous it is when rivers flood.

P3

- ② Think about preparation for evacuation.

P5

- ③ Think about where to evacuate to.

P7

- ④ Let's make My Timeline.

P9
